

# What You Need to Know **focus Select**

With our **focus** Select plan, you pay less out of pocket when you choose in-network hospitals.

For nonemergency services, members must use hospitals affiliated with the **focus** Select network to ensure they receive in-network coverage. If a member uses any other hospital, their claims will be processed out-of-network.

For urgent and emergency services, members still have the ability to go to the nearest emergency room or urgent care center. These claims process toward their in-network benefits.
