

# Affordable Care Act (ACA) and Commercial Preventive Drug List

The presence of a drug on this list does not guarantee coverage. Your benefit plan determines coverage of medications. Where differences are noted between this reference guide and your benefit plan documents, the benefit plan documents will govern.

All medications listed are still subject to Formulary management such as prior authorization, step-edits, quantity limits, and tier placement.

This list is subject to change and may include additional drugs based on your plan benefits.
